### THE PLAN

*Answer the following questions as you lay out your plan to apply a concept acquired from the TOWNSHIP GOVERNANCE ACADEMY. Please use a separate sheet of paper if more space is required.*

**Date of plan:** \_\_\_\_\_ **Project will be completed by:** \_\_\_\_\_

**To have a positive impact in the township, what skill or idea would you like to try and in what situation?** *For example, "I would like to try using ideas of improving our public image with the media coverage following our meetings," or "I would like to attend a meeting with minimal conflict between township board members," or "I would like to try to be more effective in the way I express my opinions during the meetings," or "I would like to persuade my fellow board members to hold a strategic planning retreat."*

---

---

**What would you like to see happen as a result of this attempt? What is the outcome desired?** *For example, "We have a positive news story following that meeting," or "We have a meeting where people leave smiling rather than frustrated," or "I feel like my voice is actually heard in the meeting," or "Our township would come to a shared vision of our future that would align our energy for the common good."*
